STREET CAR MEN AND COMPANY ADJUST DIFFICULTY.

Prescribed Quality.

According to J. E. McCracken, president of the local union of Amalgamated Street Car Employes, the difficulty between the men and officials of the Washington Traction and Electric Company over uniforms has reached a sudden and very satisfactory solution. A conference was held today between President McDermott, Vice President Harries and General Manager Fuller and a committee of five of the employes of the road, headed by Mr. Mc-Cracken. The appointment of the committee was the tangible result of the meeting of the men held last night at 600 C street

northwest. After the conference today Mr. Mc-Cracken said: "Speaking for the men, I wish to say first that our reception by the officers was a surprise to us. We did not expect to be able to see them. But we were received by them all, and given a most cordial reception. The committee did not represent the union, but the men went simply as employes. We requested that we be allowed to buy our uniforms where we could get them the cheapest. To this Mr.

McDermott readily agreed, provided we should duplicate the quality of the suits furnished under the \$14 contract.
"We were given a sample uniform to get figures on. This sample we think is somewhat better than the uniforms the men have been getting, but so far we have got a bid which will give them to us at one dollar less than \$14, and we hope to do

still better."
The committee will report to the officers of the road as soon as it has finished the investigation of prices. It is believed by the company that it will be impossible to duplicate the quality of the uniform prescribed for less than the contract price.

Meeting Last Night. The meeting last night was attended by about 350 conductors and motormen. A resolution was adopted declaring that any action taken by the executive committee on the uniform question would be sustained by the men.

The resolution read: "All street railway men are notified that the union intends to secure \$12 uniforms, and no employe, union or non-union, who has his own interests and those of his fellows at heart will pur-chase uniforms from the New York Clothing House until further notice from the Several speeches were made by local la-

bor leaders emphasizing the importance of organizing.

It was stated today by officers of the union that twenty-two new members joined last night and several applications for membership were filed.

INVADES NEW FIELD.

Saks & Company to Have Branch Store in New York. The retail mercantile field of New York is to be invaded by Washington merchants and a deal has been consummated by which Messrs. Saks & Co. of this city will be installed in an up-to-date modern steel structure on Broadway by September 15, 1902. The firm has leased the property on the west side of Broadway between 33d and Mayer Bras & Bro } 34th street, and the building which is to be erected there at once by New York capitalists. The New York expansion is one of the most important steps taken ...
history of the Washington concern, and is For tomorrow! metropolis a name that has so long been connected with the business enterprises of

the national capital. The establishment of an immense business house in New York has long been contemplated, and Mr. Isadore Saks stated to a Star reporter this morning that the view for many years. It is in what promises to be the shopping center of the greater metropolitan city, being located fairly tion and retail trade. The former retail district down town in New York is now mostly occupied with wholesale houses. The residences are all uptown, and it is advantageous therefore to bring the retail shops as near as possible for the conven-ience of this class of buyers. It will be seen therefore by those acquainted with the site that the location decided upon for the new Saks store is one of the most de-sirable in the big city. This fact is further evidenced by the fact that the firm of R. H. Macy & Co. has entered into contract for an extensive department store on the Broadway block between 34th and

Saks site.

The building to be occupied by Saks & The building to be occupied by Saks & Stories above ground, Co. is to rise seven stories above ground, and will have both basement and sub-basement. It will be of modern steel and stone construction and fireproof. It will front 221 feet on Broadway, extending back ninety feet on 34th street and 132 feet on 33d street. Construction work will soon begin. The block to be occupied is at the intersection of 6th avenue with Broadway, and upon the ground now are located a number of retail stores. One of the buildings is the saloon run by James J. Corbett,

Mr. Saks stated this morning that it has not been definitely decided as yet what line shall be followed in the New York

"We propose, however," he declared, "to have the largest and best store of its kind in America. The entire front of the block between 33d and 34th streets will be covered by our building. We shall incorporate under the firm name of Saks & Co., in which my brother and I shall, with our associates, contribute all the funds." Besides their extensive stores in Washington the firm has establishments in Nor-folk and Indianapolis, and a manufactur-

ing house in New York.

The establishment of the new store in the metropolis is expected to add strength and to be of great importance and benefit to the Saks stores in Washington and the other cities occupied by the firm. The great buying facilities in New York, the center of commerce in the east, being there, and the city being an enormous trade mart, are well known, and the advantage of having an establishment directly on the scene is readily apparent, and its extensive upbuilding influence on the stores here, it is declared, will quickly be felt.

COURT PASSES ORDER.

Leave to File Supplemental Bill in Potomne Flats Case. A formal order was today signed by the Supreme Court of the District of Columbia, sitting in general term, granting the United States leave to file a petition in a supplemental proceeding in the Potomac fiats case. The defendants and all other persons claiming to have any right, title, interest or claim to compensation for the value of wharf structures or other improvements connected therewith upon the Washington shore of the Potomac river on the river side of Water street and south and west thereof, are cited to answer the petition and file their claims for such values, if any they have, on or before the 1st of next July. Any person or corporation failing, after proper notice, to appear and file claim before the date mentioned, it is stipulated, shall be forever barred from setting up or maintaining any right, title, interest or

claim for such values.

determined are justly payable.
